

RENEWABLE CONNECTIONS UPDATE

Renewable Generation Status

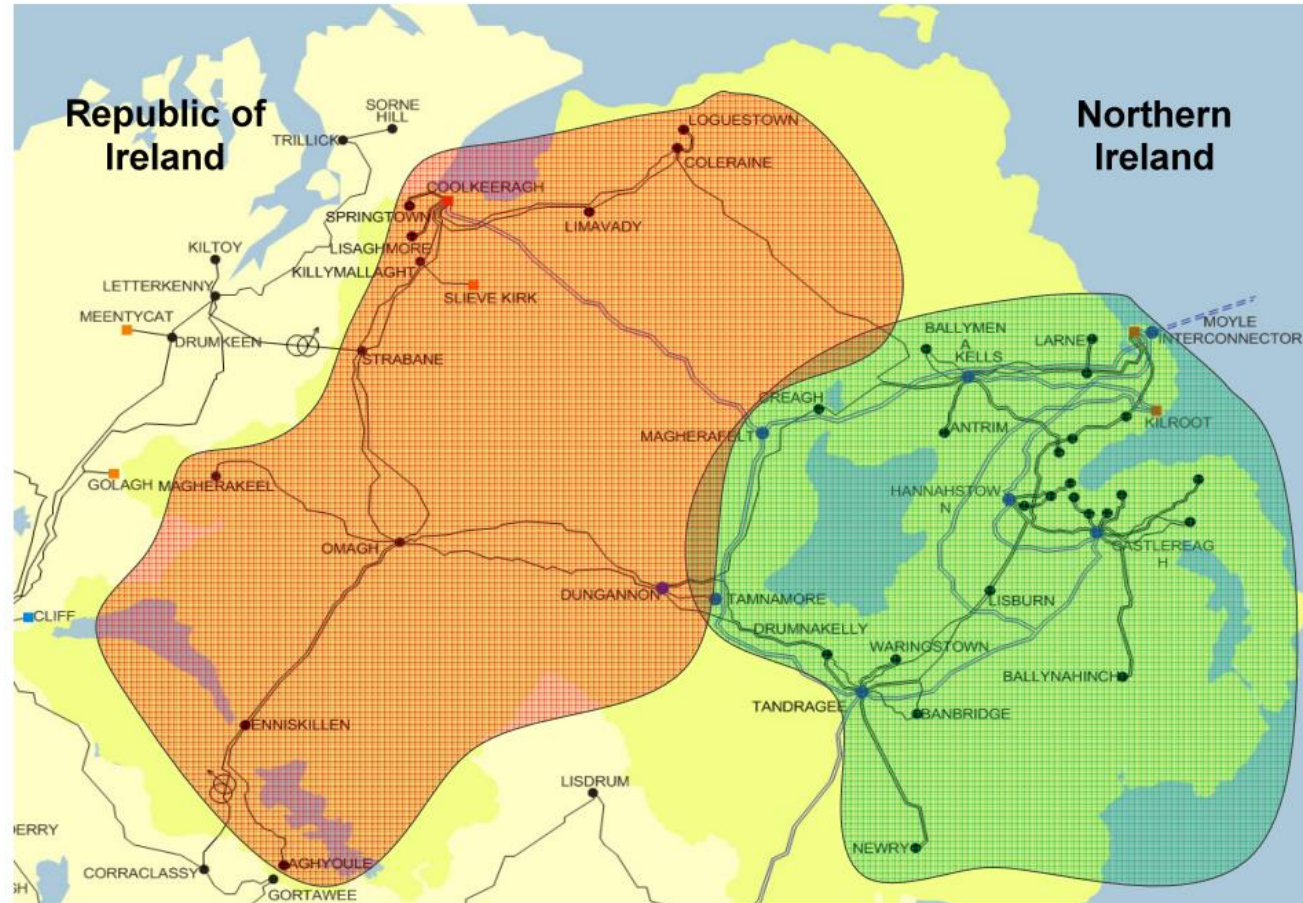

Phase 1 Progress Update

- 174 MW offers issued
- 157 MW committed (accepted offers)
- Further c30 MW capacity allocated through phase 1 extension, design/offer in progress
- Original estimation of c200 MW capacity still accurate

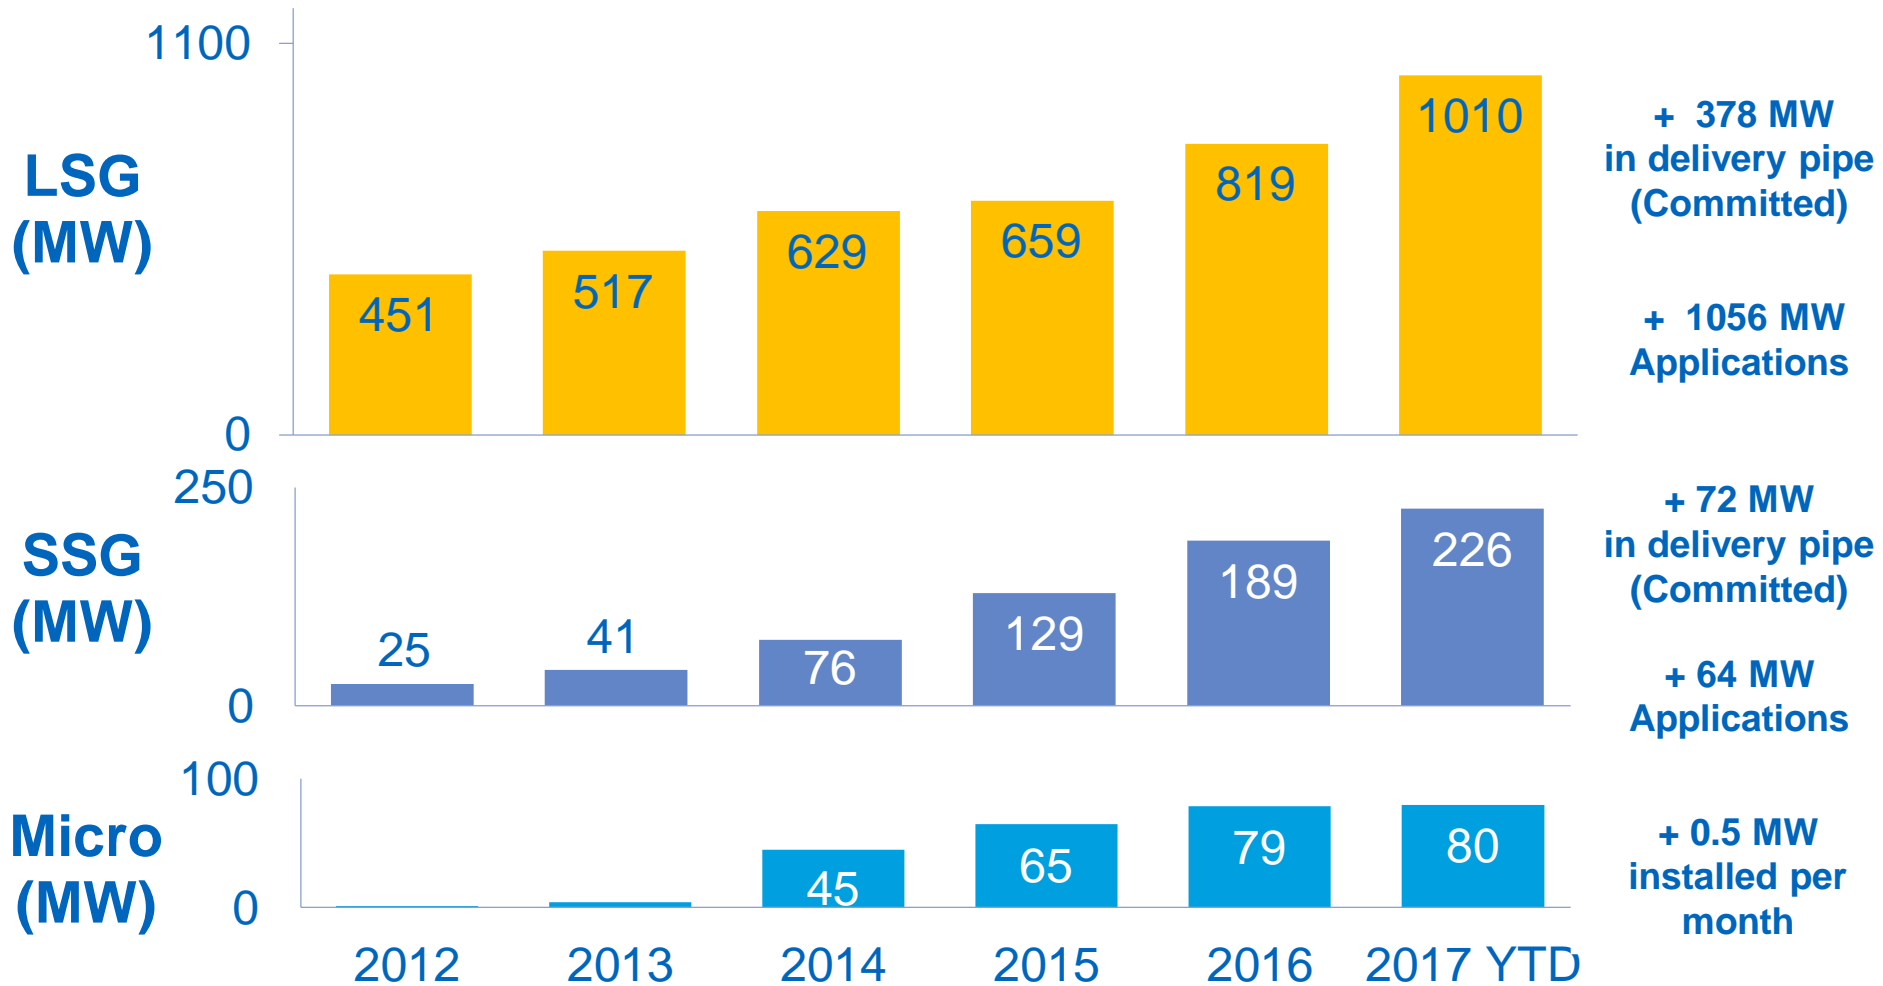

Renewable Generation Status

May 2016: No capacity left in red area, c200MW left in green area.

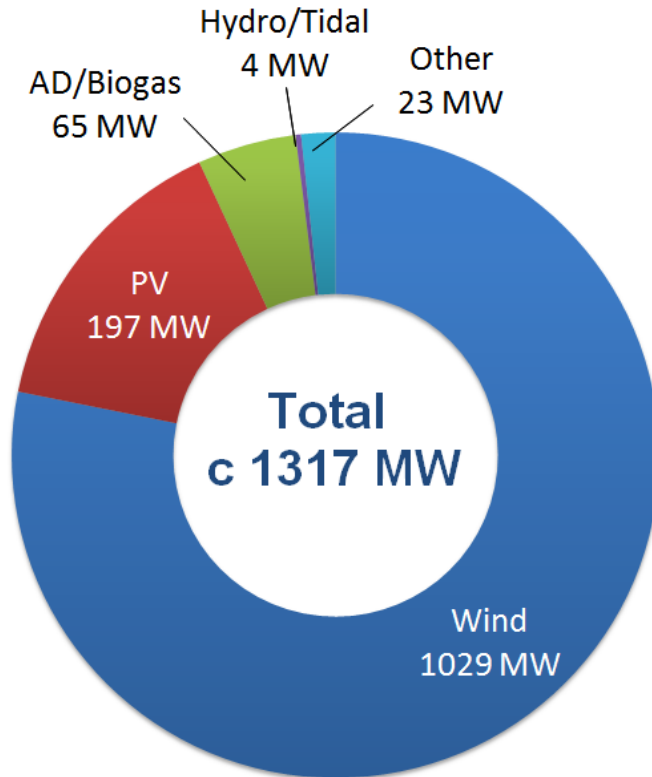

June 2017: Capacity in the green area (Ph1 + Ph1 Ext.) has now all been allocated.
