## **PART II THE CONDITIONS**

### **CHAPTER 1**

#### **Condition A Application of Other Licence Conditions and Further Modification**

- 1 Notwithstanding any other provision of the Licence, the following Conditions shall have effect as follows:
- (a) Conditions B and C shall cease to have effect on the date 3 months after SEM Go-Live (or such later date as the Authority may direct);
  - (b) Condition D shall cease to have effect on the date 18 months after SEM Go-Live (or such later date as the Authority may direct); and
  - (c) save for Conditions 16, 17 and 25 of Chapter 3, which shall be effective from the date this Condition becomes effective, the Conditions contained in Chapter 3 shall (subject to paragraph 8) be of no effect.

#### **Further Modification of Conditions**

- 2 At SEM Go-Live, the Conditions contained in Chapter 2 shall automatically be modified insofar as is necessary to ensure that they are identical in form and content to the Conditions contained in Chapter 3.
- 3 Immediately following SEM Go-Live, the Conditions shall automatically be modified by the deletion of Chapter 3 (and the Conditions contained in it).
- 4 Where a Condition ceases to have effect in accordance with paragraph 1(a) or 1(b), the Conditions shall automatically be modified by the deletion of that Condition.
- 5 Once all of the Conditions referred to in paragraphs 1(a) and 1(b) have been deleted in accordance with paragraph 4, the Conditions shall automatically be modified by the deletion of this Chapter 1 (and the Conditions contained in it), and by the deletion of the heading “Chapter 2” (but without prejudice to the continuation of the Conditions then contained in Chapter 2).

#### **Interpretation**

- 6 In Conditions A, B, C and D, references to “Chapter 1”, “Chapter 2” and “Chapter 3” are to the sections of the licence created as such by the licence modifications by which this Condition A was included in the licence.
- 7 Except in the Conditions contained in Chapter 3, references to a numbered condition are (unless expressly stated otherwise) to the relevant numbered condition contained in Chapter 2. In the Conditions contained in Chapter 3, references to a numbered condition are (unless expressly stated otherwise) to the relevant numbered condition contained in Chapter 3.
- 8 Notwithstanding paragraph 1(c), in the period prior to SEM Go-Live, the Conditions contained in Chapter 1 and Chapter 3 shall be interpreted in accordance with Condition 1 of Chapter 3, as if the provisions of Condition 1 of Chapter 3 were set out in (and applicable only to) each Condition in Chapters 1 and 3.

## **Condition B Transition Steps (General)**

### General Requirement

- 1 The Licensee shall take all reasonable steps, and do all such reasonable things, as are (in each case) within its power and necessary or expedient in order to give full and timely effect to the SEM and Directive Arrangements by which it is bound (or intended to be bound), so that the Licensee is able to comply with the SEM and Directive Arrangements by which it is bound (or intended to be bound) from the time at which they are effective (or intended to be effective).

### Requirement to Co-operate

- 2 Without prejudice to paragraphs 1 and 3, the Licensee shall cooperate with authorised electricity operators and Republic of Ireland electricity operators (and with the Department, the Authority and such other persons as the Authority may direct) and shall take all reasonable steps, and do all such reasonable things, as are (in each case) within its power and necessary or expedient in order to enable:
  - (a) authorised electricity operators to comply with their statutory or licence obligations to give full and timely effect to the SEM and Directive Arrangements by which they are bound (or intended to be bound), so that such authorised electricity operators are able to comply with the SEM and Directive Arrangements by which they are bound (or intended to be bound) from the time at which such SEM and Directive Arrangements are effective (or intended to be effective);
  - (b) authorised electricity operators to comply with any directions by the Authority under a provision of their licences equivalent to paragraph 4; and
  - (c) Republic of Ireland electricity operators to comply with their statutory or licence obligations to prepare for the Single Electricity Market,

and in the event of any dispute between the Licensee and such other person as to whether a particular step, or thing, is reasonable, the Licensee or such other person may refer the matter to the Authority for determination (which determination shall be final for the purposes of this paragraph).

Requirements to Comply with Directions

- 3 Without prejudice to paragraphs 1 and 2, the Licensee shall take all reasonable steps, and do all such reasonable things, as are (in each case) within its power and necessary or expedient in order to comply with any direction made from time to time by the Authority in accordance with paragraph 4 (and shall by so doing be taken to have complied with such direction).
- 4 The Authority may issue directions to the Licensee setting out the steps (including without limitation those referred to in paragraph 5) to be taken (or procured) by the Licensee which are, in the Authority’s reasonable opinion, appropriate in order to give full and timely effect to the SEM and Directive Arrangements by which the Licensee is bound (or intended to be bound), so that the Licensee is able to comply with the SEM and Directive Arrangements by which it is bound (or intended to be bound) from the time at which they are effective (or intended to be effective).
- 5 The directions made by the Authority under paragraph 4 (with which the Licensee is, in accordance with paragraph 3, required to take all reasonable steps, and do all such reasonable things, as are (in each case) within its power and necessary or expedient in order to comply) may include requirements regarding the following steps:
  - (a) to secure or facilitate the amendment or establishment of any of the core industry documents;
  - (b) to effect the novation of (or other transfer of rights and obligations under) any of the core industry documents from the Licensee or an authorised electricity operator to the Licensee or an authorised electricity operator; and
  - (c) for securing the co-ordinated and effective commencement and implementation of, and operations under the Single Electricity Market Trading and Settlement Code (including the testing, trialling and start-up of the systems, processes and procedures employed in such implementation and employed by authorised electricity operators and others in connection with such operations).
- 6 The Authority may, at any time, by a further direction in accordance with paragraph 4

(in order to give (or continue to give) full and timely effect to the SEM and Directive Arrangements by which the Licensee is bound (or intended to be bound)) amend or cancel any direction (or part thereof) previously made under paragraph 4.

- 7 The Authority may not make a direction under paragraph 4 until it has undertaken such period of prior consultation with the Licensee (and such other persons as the Authority deems appropriate) as is reasonable in the circumstances. No direction made under paragraph 4 shall be effective until a copy is served on the Licensee.

#### Requirement not to Frustrate

- 8 Without prejudice to any public or administrative law right, or statutory right, that the Licensee may have to bring any claim against any public body or person, the Licensee shall not take any step, or exercise any right, which is intended to hinder or frustrate the giving of full and timely effect to the SEM and Directive Arrangements.

#### Potential Conflict

- 9 If the Licensee is aware of any conflict between its compliance with the provisions of this Condition or any direction under paragraph 4 and its compliance with any other Condition of the Licence, the Licensee shall promptly inform the Authority of such conflict.
- 10 Provided the Licensee complies with paragraph 9, the other Conditions of the Licence shall prevail over this Condition in the event of conflict. If there is any conflict between a direction made under paragraph 4 and another requirement of the Licence, the provisions of the direction shall prevail.

#### Information

- 11 The Licensee shall provide to the Authority, in such manner and at such times as the Authority may reasonably require, such information and shall procure and furnish to it such reports as the Authority may reasonably require or deem necessary or appropriate to enable the Authority to monitor the Licensee's compliance with the requirements of this Condition, including (without limitation):
- (a) information as to the Licensee's readiness concerning the SEM and Directive

Arrangements by which it is bound (or intended to be bound); and

- (b) status reports concerning those matters referred to in sub-paragraph (d) of the definition of SEM and Directive Arrangements by which the Licensee is bound (or intended to be bound), and drafts of any legal documents by which such matters are to be achieved.
- 12 If the Licensee is aware (or should reasonably be aware) of any matter or circumstance which it considers will (or which the Licensee should reasonably consider likely to) hinder or frustrate the giving of full and timely effect to the SEM and Directive Arrangements, the Licensee shall promptly inform the Authority of such matter or circumstance.

- (b) Where, in relation to the accounting statements in respect of a financial year, the Licensee has changed such bases of charge, apportionment or allocation from those adopted for the immediately preceding financial year, the Licensee shall, if so directed in directions issued by the Authority for the purposes of this Condition, in addition to preparing accounting statements on those bases which it has adopted, prepare such accounting statements on the bases which applied in respect of the immediately preceding financial year.

5 Accounting statements in respect of a financial year prepared under sub-paragraph (b) of paragraph 3 shall, so far as reasonably practicable and unless otherwise approved by the Authority having regard to the purposes of this Condition:

- (a) have the same content and format (in relation to each Separate Business) as the annual accounts of the Licensee (and any affiliate or related undertaking of the Licensee) prepared under Article 234 and, where appropriate, Article 235 of the Companies (Northern Ireland) Order 1986 and conform to the best commercial accounting practices including International Accounting Standards and International Financial Reporting Standards issued by the International Accounting Standards Board and adopted for use in the European Union; and
- (b) state the accounting policies adopted; and
- (c) (with the exception of the part of such statements which shows separately the amounts charged, apportioned or allocated and describes the bases of charge or apportionment or allocation respectively), be published with the annual accounts of the Licensee.

6 References in this Condition to costs or liabilities of, or reasonably attributable to, any Separate Business shall be construed as excluding taxation, capital liabilities which do not relate principally to a particular Separate Business, and interest thereon; and references to any accounting statement shall be construed accordingly.

### **Condition 3 Availability of Resources and Undertaking of Ultimate Controller**

#### **Availability of Resources**

- 1 The Licensee shall at all times act in a manner calculated to secure that it has sufficient resources (including, without limitation, management resources, financial resources and financial facilities) to enable it to:
  - (a) carry on the Separate Businesses; and
  - (b) comply with its obligations under the Order, the Energy Order, the SEM Order and this Licence.
  
- 2 The Licensee shall submit a certificate addressed to the Authority, approved by a resolution of the Board of Directors of the Licensee and signed by a director of the Licensee pursuant to that resolution. Such certificate shall be submitted on 30 September 1999 and thereafter on 30 September of each subsequent year. Each certificate shall be in one of the following forms:
  - (a) “After making enquiries, the directors of the Licensee have a reasonable expectation that the Licensee will have available to it, after taking into account in particular (but without limitation) any dividend or other distribution which might reasonably be expected to be declared or paid, sufficient financial resources and financial facilities to enable the Licensee to carry on the Separate Businesses for a period of 12 months from the date of this certificate.”
  - (b) “After making enquiries, the directors of the Licensee have a reasonable expectation, subject to the Terms of this certificate, that the Licensee will have available to it, after taking into account in particular (but without limitation) any dividend or other distribution which might reasonably be expected to be declared or paid, sufficient financial resources and financial facilities to enable the Licensee to carry on the Separate Businesses for a period of 12 months from the date of this certificate. However, they would like to draw attention to the following factors which may cast doubt on the ability of the Licensee to carry on the Separate Businesses.”

- (c) “In the opinion of the directors of the Licensee, the Licensee will not have available to it sufficient financial resources and financial facilities to enable the Licensee to carry on the Separate Businesses for a period of 12 months from the date of this certificate.”
- 3 The Licensee shall submit to the Authority together with the certificate referred to in paragraph 2 of this condition a statement of the main factors which the directors of the Licensee have taken into account in giving that certificate.
- 4 The Licensee shall inform the Authority in writing immediately if the directors of the Licensee become aware of any circumstances which cause them no longer to have the reasonable expectation expressed in the then most recent certificate given under paragraph 2.
- 5 The Licensee shall use its best endeavours to obtain and submit to the Authority with each certificate provided for in paragraph 2 a report prepared by its auditors and addressed to the Authority stating whether or not the auditors are aware of any inconsistencies between, on the one hand, that certificate and the statement submitted with it and, on the other hand, any information which they obtained during their audit work.

#### Undertaking of ultimate controller

- 6 The Licensee shall procure from each company or other person which the Licensee knows or reasonably should know is at any time an ultimate controller of the Licensee a legally enforceable undertaking in favour of the Licensee in a form specified by the Authority that the ultimate controller will refrain from any action, and will procure that every subsidiary of the ultimate controller (other than the Licensee and its subsidiaries) will refrain from any action, which would then be likely to cause the Licensee to breach any of its obligations under the Order, the Energy Order, the SEM Order or this Licence. Such undertaking shall be obtained within 7 days after the date when these modifications become effective, or after the person in question becomes an ultimate controller (as the case may be) and shall remain in force for as long as the Licensee remains the holder of this Licence and the giver of the undertaking remains an ultimate controller of the Licensee.

- 7 The Licensee shall:
- (a) deliver to the Authority evidence (including a copy of each such undertaking) that the Licensee has complied with the obligation to procure undertakings pursuant to paragraph 6;
  - (b) inform the Authority immediately in writing if the directors of the Licensee become aware that the undertaking has ceased to be legally enforceable or that its terms have been breached; and
  - (c) comply with any direction from the Authority to enforce any such undertaking.
- 8 The Licensee shall not, save with the written consent of the Authority, enter (directly or indirectly) into any agreement or arrangement with an ultimate controller of the Licensee or any of its subsidiaries (other than subsidiaries of the Licensee) at a time when:
- (a) an undertaking complying with paragraph 6 is not in place in relation to that ultimate controller; or
  - (b) there is an unremedied breach of such undertaking; or
  - (c) the Licensee is in breach of the terms of any direction issued by the Authority under paragraph 7.
- 9 In this Condition 3, unless the context otherwise required, “ultimate controller” means:
- (a) any holding company of the Licensee, which is not itself a subsidiary of another company; and/or
  - (b) any person who (whether alone or with a person or persons connected with him) is in a position to control, or to exercise influence over, the policy of the Licensee, or any holding company of the Licensee, by virtue of:
    - (i) rights under contractual arrangement to which he is a party or of which his is a beneficiary;

- (ii) rights of ownership (including rights attached to or deriving from securities or rights under a trust) which are held by him or of which he is a beneficiary,

but shall exclude any director or employee of a corporate body in his capacity as such and any minister, ministry, department, agency, authority, official or statutory person,

and a person shall be considered to be connected with another person if he is a party to any arrangement regarding the exercise of any such right as are described in paragraph (b) above.

### **Condition 3A. Board Independence**

1 Within one year from the date upon which this Condition becomes effective, and at all times thereafter, the Licensee shall:

(a) ensure that its board of directors comprises a majority of independent non-executive directors who are persons of standing who individually possess:

(i) relevant experience and knowledge of the energy industry; or

(ii) relevant experience and knowledge of any other regulated industry; or

(iii) substantial private sector commercial or financial experience gained at board level (or equivalent) in another organisation of comparable size and standing to the Licensee,

provided that at least one independent non-executive director must possess relevant experience and knowledge of the energy industry; and

(b) demonstrate to the satisfaction of the Authority, prior to any appointment from time to time of a board director, that the said appointment will not cause the Licensee to enter into any breach of the requirements contained in subparagraph (a).

2 If at any time the Licensee, by virtue of any person being appointed as, or ceasing to be, a director of the Licensee (for the purposes of this Condition, an “**Event**”), is unable to comply with the requirements of paragraph 1, the Licensee shall take such steps as are necessary to ensure that compliance is achieved as soon as reasonably practicable after that Event and in any case within two months (or such longer period as may be agreed by the Authority) of that Event.

3 In this Condition:

“**independent non-executive director**” means a person who has not been employed by the Licensee, its ultimate controllers or any affiliate or related undertaking of the Licensee within the last five years; and who does not have a material business

relationship with the Licensee, its ultimate controllers  
or any affiliate or related undertaking of the Licensee.

**“ultimate controller”**

has the meaning given to that expression in Condition  
3.

#### **Condition 4 Restriction on Dividends**

1 The directors of the Licensee shall not declare or recommend a dividend, and the Licensee shall not make any other form of distribution within the meaning of Article 271 of the Companies (Northern Ireland) Order 1986, or redeem or repurchase any share capital of the Licensee, unless prior to the declaration, recommendation or making of the distribution (as the case may be) the Licensee has issued to the Authority a certificate in the following form:

“After making enquiries, the directors of the Licensee are satisfied:

- (a) that the Licensee is in compliance in all material respects with all the obligations imposed on it by conditions 3, 5, 8, 9, 9A, 13 and 14 of the Licence; and
- (b) that the making of a distribution of [*amount*] on [*date*] will not, either alone or when taken together with other circumstances reasonably foreseeable at the date of this certificate, cause the Licensee to be in breach to a material extent of any of those obligations in the future.”

2 The certificate given under paragraph 1 must be signed by a director of the Licensee and must have been approved by a resolution of the board of directors of the Licensee passed not more than 14 days before the date on which the declaration, recommendation or payment in question will be made.

3 Where the certificate given under paragraph 1 has been issued in respect of the declaration or recommendation of a dividend, the Licensee shall be under no obligation to issue a further certificate prior to payment of that dividend, provided that such payment is made within six months of the issuing of that certificate.

**Condition 5 Prohibition of Cross-Subsidies**

- 1 The Licensee shall procure that no Separate Business gives any cross-subsidy to, or receives any cross-subsidy from, any other business of the Licensee or of an affiliate or related undertaking of the Licensee (whether or not a Separate Business).
- 2 Nothing which the Licensee is obliged to do or not do pursuant to this Licence or any other document which grants a licence to the Licensee under the Order shall be regarded as a cross-subsidy for the purposes of this Condition.

**Condition 6 Health and Safety of Employees**

- 1 The Licensee shall:
  - (a) acting jointly and in co-operation with the holders of other licences granted under the Order, consider and discuss matters of mutual concern in respect of the health and safety of persons employed by them; and

- 3      In respect of the year beginning on 1 April 1993, and in each subsequent year, the Licensee shall pay to the Department a fee which is the aggregate of the following amounts:
  - (a)     an amount equal to the proportion which the Authority shall determine of the amount estimated by the Authority, according to a method which has previously been disclosed in writing to the Licensee, as likely to be its costs during the year in question in the exercise of its functions under the Order, the Energy Order, the SEM Order or the Directive Regulations in relation to the holders of licences granted under Article 10 of the Order;
  - (b)     an amount which is a proportion, as determined by the Authority, of the amount notified to the Authority by the General Consumer Council and approved by the Department as being the General Consumer Council's estimate of its likely costs during the year in question in the exercise of the functions relating to electricity assigned to it by or under the Order, the Energy Order, the SEM Order or the Directive Regulations and any other such functions as it has been or may be required to exercise by the Authority, or, in the event that the Authority shall not have received such notification by 31 July in the year in question, an amount which is the relevant proportion of the Authority's estimate of such likely costs (having regard to any estimate of such costs in any forward work programme published by the General Consumer Council in respect of the year in question);
  - (c)     an amount which is a proportion as determined by the Authority of the amount estimated by the Authority (in consultation with the Competition Commission) as having been incurred in the calendar year immediately preceding the 1 April

in question by the Competition Commission in connection with references made to it under Article 15 of the Order with respect to the Licence or any other licence granted under Article 10(1)(b) of the Order; and

- (d) the difference (being a positive or negative amount), if any, between:
- (i) the amount of the fee paid by the Licensee in respect of the year immediately preceding the 1 April in question less any refund paid to the Licensee in respect of that year under paragraph 4 below; and
  - (ii) the amount which that fee would have been in respect of that year had:
    - (A) the amount comprised therein under sub-paragraph (a) above been calculated by reference to the total costs of the Authority in connection with its functions under the Order, the SEM Order and the Directive Regulations and its functions in relation to electricity under the Energy Order, and the proportion of those costs actually attributable to this Licence; and
    - (B) the amount comprised therein under sub-paragraph (b) above been calculated by reference to the relevant proportion of the total costs of the General Consumer Council in connection with the functions referred to in sub-paragraph (b) above and, where appropriate, the proportion of those costs actually attributable to this Licence,

such total costs being apportioned, in each case, as determined by the Authority according to a method previously disclosed in writing to the Licensee,

and the fee shall be paid by the Licensee to the Department within one month of the Authority giving notice to the Licensee of its amount if that notice is given within 6 months of the beginning of the year in respect of which the fee is payable.

- 4 In respect of the year beginning on 1 April 1998 and for each subsequent year, the Authority may pay the Licensee an amount (“**the refund**”) calculated in accordance

with the method previously disclosed in writing to the Licensee and by reference to the difference between:

- (a) the proportion of the fee for that year paid by the Licensee which is attributable to the Authority's estimate in accordance with paragraph 3(a) and the estimate of the General Consumer Council or the Authority (as appropriate) in accordance with paragraph 3(b); and
- (b) the Authority's reasonable revised estimate of those costs (taking account of any revised estimate of the costs referred to in paragraph 3(b) which is approved by the Department and notified to the Authority by the General Consumer Council),

provided that any such refund shall be paid to the Licensee on or before 31 March in the year to which the licence fee relates.

**Condition 8 Provision of Information to the Authority**

- 1 Subject to paragraphs 6 and 7, the Licensee shall furnish to the Authority, in such manner and at such times as the Authority may require, such information and shall procure and furnish to it such reports, as the Authority may consider necessary in the light of the Conditions or any Schedule or as it may require for the purpose of performing:
  - (a) the functions assigned to it by or under the Order, the Energy Order, the SEM Order or the Directive Regulations; and
  - (b) any functions transferred to it under the Order, the Energy Order, the SEM Order or the Directive Regulations.
  
- 2 The Licensee shall, within 7 days after the date when these modifications become effective or after the person in question becomes an ultimate controller (as the case may be), procure from each person which the Licensee knows (or reasonably should know) is at any time an ultimate controller of the Licensee a legally enforceable undertaking in favour of the Licensee in a form specified by the Authority, which shall provide that that ultimate controller will give to the Licensee, and will procure that each subsidiary of that ultimate controller (other than the Licensee and its subsidiaries) will give to the Licensee, all such information as may be necessary to enable the Licensee to comply fully with paragraph 1 of this Condition. Such undertaking shall remain in force for as long as the Licensee remains the holder of this Licence and the giver of the undertaking remains an ultimate controller of the Licensee.
  
- 3 The Licensee shall:
  - (a) deliver to the Authority evidence (including a copy of each such undertaking) that the Licensee has complied with the obligation to procure any undertakings pursuant to paragraph 2;

- (b) there is an unremedied breach of such an undertaking; or
- (c) the Licensee is in breach of the terms of any direction issued by the Authority under paragraph 3 in respect of such an undertaking.
- 5 Without prejudice to the generality of paragraph 1, the Authority may call for the furnishing of accounting information which is more extensive than or differs from that required to be prepared and supplied to the Authority under Condition 3.
- 6 The Licensee may not be required by the Authority to furnish it under this Condition with information for the purpose of the exercise of its functions under Article 7 of the Energy Order.
- 7 The Licensee may not be required by the Authority to furnish it under this Condition with any information in relation to an enforcement matter which the Licensee could not be compelled to produce or give in evidence in civil proceedings in the High Court.

- 3E. Where this paragraph applies, the Licensee shall ensure that in carrying on the Transmission and Distribution Business, it does not, in any of the names, brands, trade names or advertising of the Transmission and Distribution Business, use a name, brand or trade name used by or associated with the Supply Business or the Power Procurement Business.

in each case as appropriate to the purpose under consideration, and in accordance with its role under the Transmission Interface Arrangements, and taking into account the Transmission System Operator’s obligations in relation to the transmission system in accordance with the Transmission System Operator Licence and the Licensee’s obligations under Article 12(2) of the Order.

2 In order to enable it to comply with its obligation under paragraph 1(b), the Licensee shall, in cooperation with the Transmission System Operator (pursuant to the Transmission Interface Arrangements), consult with the Republic of Ireland System Operator so as to:

(a) inform the Republic of Ireland System Operator of the Licensee’s views, from time to time, regarding the planning and development of the transmission system; and

- (b) establish the Republic of Ireland System Operator’s views, from time to time, regarding the planning and development of the Republic of Ireland transmission system.

Such written policy may be prepared as a constituent part of the statement which the Licensee is required to prepare by paragraph 2(1) of schedule 9 of the Order.

#### Revision of Arrangements

- 3 The Licensee shall in consultation with electricity undertakings to the extent such persons are liable to be materially affected thereby, periodically (and at any time when requested to do so by the Authority) review the Transmission and Distribution System Security and Planning Standards and their implementation. Insofar as relevant to the transmission system, the Licensee shall undertake such consultation and review in common with the Transmission System Operator. Following any such review, the Licensee shall send to the Authority:
- (a) a report on the outcome of that review;
  - (b) any revision which the Licensee proposes to make to the Transmission and Distribution System Security and Planning Standards from time to time (having regard to the outcome of that review); and
  - (c) any written representations or objections from the Transmission System Operator, the Republic of Ireland System Operator or electricity undertakings (including any proposals by such persons for revisions to the documents that were not accepted by the Licensee in the course of the review) arising during the consultation process and subsequently maintained.

- 4 Revisions to the Transmission and Distribution System Security and Planning Standards proposed by the Licensee and sent to the Authority pursuant to paragraph 3 shall require the Authority’s approval before they may be made.
- 5 Having regard to any written representations or objections referred to in subparagraph 3(c), and following such further consultation (if any) as the Authority may consider appropriate, the Authority may issue directions requiring the Licensee to revise the Transmission and Distribution System Security and Planning Standards in such manner as may be specified in the directions, and the Licensee shall comply with any such directions forthwith.

#### Performance Standards

- 6 The Licensee shall, whenever requested to do so by the Authority, draw up and submit to the Authority for its approval a statement setting out criteria by which performance of the Licensee in maintaining transmission system security may be measured, and by which performance of the Licensee in maintaining distribution system security, availability and quality of service may be measured.
- 7 The Licensee shall within 2 months after the end of each financial year submit to the Authority a report providing details of the performance of the Licensee during the previous financial year against the criteria referred to in paragraph 6.

#### Derogation

- 8 The Authority may from time to time (following consultation with the Licensee, the Transmission System Operator, (to the extent liable to be materially affected thereby) any electricity undertaking and the Republic of Ireland System Operator, and such (if any) other licence holders as the Authority shall consider appropriate) issue directions relieving the Licensee of its obligations under paragraph 1 in respect of such parts of the total system and to such extent as may be specified in the directions.

#### Publication

- 9 The Licensee shall give or send a copy of the Transmission and Distribution System Security and Planning Standards, and of any revision thereto, to the Authority and to

the Republic of Ireland System Operator. The Licensee shall also publish a copy of the document on its website.

- 10 The Licensee shall, subject to paragraph 11, give or send a copy of any of the Transmission and Distribution System Security and Planning Standards to any person requesting it.
- 11 The Licensee may make a charge for any copy given or sent pursuant to paragraph 10 of an amount reflecting the Licensee's reasonable costs of the document which will not exceed any amount specified for the time being for the purposes of this Condition in directions issued from time to time by the Authority.

## **Condition 20 Obligations in Relation to Offers by Transmission System Operator**

### Connection

- 1 On notification by the Transmission System Operator that it has received an application for connection or modification pursuant to condition 25 or 27 of the Transmission System Operator Licence, the Licensee shall (subject to paragraph 4), as soon as reasonably practicable and in accordance with the Transmission Interface Arrangements:
  - (a) where it has all the information it reasonably requires for the purpose of formulating such an offer, offer to enter into (and, where such offer is accepted, enter into) an agreement with the Transmission System Operator on the terms referred to in paragraph 2; or
  - (b) notify the Transmission System Operator of the information the Licensee reasonably requires in order to formulate such an offer.
  
- 2 The terms referred to in paragraph 1(a) shall, in respect of the application for connection or modification in question, make detailed provision regarding:
  - (a) the carrying out of works (if any) on the transmission system as are required to connect the transmission system to any other system for the transmission or distribution of electricity, and for the obtaining of any consents necessary for such purposes;
  - (b) the carrying out of works (if any) on the transmission system in relation to the extension or reinforcement of the total system rendered necessary or appropriate by reason of making the connection or modification to an existing connection and for the obtaining of any consents necessary for such purposes;
  - (c) where the Transmission System Operator requests such meters, the carrying out of works (if any) on the transmission system to install meters that will enable the Transmission System Operator to measure electricity being accepted into the All-Island Transmission Networks at the specified entry point or points or leaving such system at the specified exit point or points;

- (d) the carrying out of works (if any) on the transmission system in relation to the installation of such switchgear or other apparatus (if any) as may be required for the interruption of supply;
- (e) the date by which any works so as to permit access to the All-Island Transmission Networks (including for this purpose any works to reinforce or extend the transmission system) shall be completed and so that, unless otherwise agreed by the Transmission System Operator, a failure to complete such works by such date shall be a material breach of the agreement entitling the Transmission System Operator to rescind the agreement insofar as it relates to the application for connection or modification in question;
- (f) the installation of special metering, telemetry or data processing equipment (if any) for the purpose of enabling any person who is bound to comply with the Grid Code to comply with its obligations in respect to metering thereunder or the performance by the Transmission System Operator of any service in relation to such metering thereunder;
- (g) the charges to be paid to the Licensee in respect of the application for connection or modification in question, and the means by which such charges have been calculated (such calculation to be based on the charging principles established in accordance with Condition 22); and
- (h) such further terms as are or may be appropriate for the purpose of the agreement,

and in formulating such terms, the Licensee shall act in accordance with the Transmission Interface Arrangements, and shall (where appropriate) consult and cooperate with the Republic of Ireland Electricity Board.

#### Offer of terms - general

- 3 The Licensee shall offer terms for agreements in accordance with paragraphs 1 and 2 as soon as practicable and (save where the Authority consents to a longer period) in any event not more than 2 months after receipt by the Licensee of an application containing all such information as the Licensee may reasonably require for the

purpose of formulating the terms of the offer.

4 The Licensee shall not be obliged to offer to enter into, or to enter into, any agreement pursuant to this Condition, if to do so would involve the Licensee:

- (a) in breach of its duties under Article 12 of the Order;
- (b) in breach of any regulations made under Article 32 of the Order, or any other enactment relating to safety or standards applicable in respect of the Separate Businesses; or
- (c) in breach of the Conditions of this Licence;

and where the Licensee intends, in reliance on this paragraph, not to offer to enter into, or to enter into, an agreement with the Transmission System Operator, the Licensee shall notify the Transmission System Operator of that fact as soon as reasonably practicable and in accordance with the Transmission Interface Arrangements.

#### Works on the distribution system

5 This Condition shall apply in respect of works required on the Licensee's distribution system (as well as works required on the transmission system) in response to such applications as are referred to in paragraph 1, and accordingly:

- (a) references in paragraph 2 to works on the transmission system, shall apply equally to works on the Licensee's distribution system; and
- (b) the Licensee shall not be obliged to offer to enter into, or to enter into, any agreement concerning works on the Licensee's distribution system pursuant to this Condition, if to do so would involve the Licensee in breach of the Distribution Code.

## **Condition 21 Functions of the Authority – Transmission Offers**

### Application Disputes

- 1 If, after a period which appears to the Authority to be reasonable for the purpose, the Transmission System Operator has failed to enter into an agreement with any person entitled or claiming to be entitled thereto (an “**applicant**”) pursuant to condition 25 or 27 of the Transmission System Operator Licence and the applicant or the Transmission System Operator applies to the Authority for a determination in accordance with condition 26 or 28 of the Transmission System Operator Licence, the provisions of paragraph 2 shall apply.
- 2 Insofar as an applicant wishes to proceed, and following notification by the Transmission System Operator that such is the case, the Licensee shall, as soon as is reasonably practicable, offer to enter into (and, where such offer is accepted, enter into) an agreement with the Transmission System Operator which fully reflects the terms settled by the Authority in the relevant case pursuant to condition 26 or 28 of the Transmission System Operator Licence.

### Amendment Disputes

- 3 Where either party to an agreement for connection applies to the Authority for a determination regarding a proposal to amend an agreement for connection in accordance with condition 26 or 28 of the Transmission System Operator Licence, the provisions of paragraph 4 shall apply.
- 4 Insofar as the Authority notifies the Licensee that the relevant TO agreement should be amended, supplemented or replaced, the Licensee shall, as soon as is reasonably practicable, offer to enter into (and, where such offer is accepted, enter into) an agreement with the Transmission System Operator to amend, supplement or replace the TO agreement as directed.
- 5 In this Condition, unless the context otherwise requires:

“**agreement for connection**” means:

## **Condition 22 Transmission Charging Statement**

### Statement of Charges

- 1 The Licensee shall, as soon as practicable after this Condition comes into effect (and, in any event, not later than such date as the Authority may direct) prepare (and obtain the Authority's approval to) a statement (or statements) setting out the basis upon which charges will be made to the Transmission System Operator:
  - (a) for the transmission services; and
  - (b) in relation to the works referred to in Condition 20.
- 2 A statement prepared under paragraph 1 shall be in such form and contain such detail as shall be necessary to enable the Transmission System Operator to make a reasonable estimate of the charges to which it would become liable for the provision of such services, including such of the information set out in paragraph 3 as is required by such paragraph to be included.

### Connections

- 3 Except to the extent that the Authority may otherwise direct, the statement referred to in paragraph 1(b) shall include:
  - (a) a schedule listing those items (including the carrying out of works and the provision and installation of electric lines or electrical plant or meters) of significant cost liable to be required for the purpose of connection (at entry or exit points) to the transmission system for which site specific charges may be made or levied and including (where practicable) indicative charges for each such item and (in other cases) an explanation of the methods by which and the principles on which such charges will be calculated;
  - (b) the methods by which and the principles on which connection charges will be made in circumstances where the electric lines or electrical plant to be installed are (at the Licensee's discretion) of greater size or capacity than that required for use of system by the person seeking connection;

capitalised charge) will be made for maintenance and repair required of electric lines, electrical plant or meters provided and installed for making a connection to the transmission system;

- (d) the methods by which and the principles on which any charges will be made for the provision of special metering or telemetry or data processing equipment by the Licensee for the purposes of enabling any person which is bound to comply with the Grid Code to comply with its obligations in respect of metering thereunder, or for the performance by the Licensee of any service in relation thereto;
- (e) the methods by which and principles on which any charges will be made for disconnection from the transmission system and the removal of electrical plant, electric lines and ancillary matters following disconnection; and
- (f) such other matters as shall be specified in directions issued by the Authority from time to time for the purposes of this Condition.

4 Site specific charges for those items referred to in paragraph 3 shall be set at a level which will enable the Licensee to recover:

- (a) the appropriate proportion of the costs directly or indirectly incurred (or to be incurred) in carrying out the works, extension or reinforcement in question and in providing, installing, maintaining and repairing (and, following disconnection, removing) the electrical lines, electrical plant, meters, special metering, telemetry, data processing equipment or other items in question; and
- (b) a reasonable rate of return on the capital represented by such costs.

#### Alternative Statement

5 In addition to, and without prejudice to, the Licensee's obligations under paragraph 1, the Licensee shall, upon being required to do so in directions issued by the Authority (and within such period as the Authority may specify), prepare a statement or statements approved by the Authority providing that charges for the matters set out in paragraph 1 will be made on such basis as shall be specified in the directions. Such statement or statements shall be in such form and contain such detail as shall be

necessary to enable the Transmission System Operator to make a reasonable estimate of the charges to which it would become liable for the provision of such services and (without prejudice to the foregoing) including such information as shall be specified in the directions. Each statement prepared in accordance with this paragraph shall, with effect from the date on which it is approved by the Authority or such later date as the Authority shall specify, replace the corresponding statement prepared by the Licensee in accordance with paragraph 1 or, as the case may be, this paragraph (as from time to time revised in accordance with paragraph 6) which is in force at such date and the Licensee shall, with effect from such date make charges in accordance with the statement (as from time to time revised in accordance with paragraph 6) which has replaced such corresponding statement.

#### Revision of Statements

- 6 The Licensee may periodically revise the information set out in and, with the approval of the Authority, alter the form of the statements prepared in accordance with paragraph 1 or 5 and shall, at least once in every year this Licence is in force, revise such statements in order that the information set out in the statements shall continue to be accurate in all material respects. Each such revision shall require to be approved by the Authority and shall not become effective until approved by the Authority.
- 7 The Licensee shall give or send a copy of the statements prepared in accordance with paragraphs 1 and 5 or (as the case may be) of the latest version of such statements in accordance with paragraph 6 approved by the Authority pursuant to such paragraph to any persons who requests a copy of such statement or statements.

- (b) a reasonable rate of return on the capital represented by such costs.

Preparation of statement on distribution system capacity

5 If so requested and subject to paragraphs 6 and 12, the Licensee shall, as soon as practicable and in any event within 28 days (or where the Authority so approves such longer period as the Licensee may reasonably require having regard to the nature and complexity of the request) after the date referred to in paragraph 13, give or send to any person making such request a statement showing present and future circuit capacity, forecast power flows and loading on the part or parts of its distribution

system specified in the request and fault levels for each distribution node covered by the request and containing:

6 Except as provided in sub-paragraphs (a) and (b) below, the Licensee shall include in every statement prepared or (as the case may be) given or sent under paragraph 5 the information required by such paragraph:

- (a) the Licensee may with the prior consent of the Authority omit from any such statement any details as to circuit capacity, power flows, loading or other information, disclosure of which would, in the view of the Authority, seriously and prejudicially affect the commercial interests of the Licensee or any third party.
- (b) the Licensee may omit from any statement given or sent under paragraph 5 any information the disclosure of which would place the Licensee in breach of Condition 10.

#### Preparation of new statements, circulation and charging

### Unit Coverage

- 8 The maximum allowed PSO revenue (or certain parts of the maximum allowed PSO revenue) can potentially be recovered from the quantity entering the total system in the authorised transmission area and from Wheeled Units. The final decision regarding which units in particular the maximum allowed PSO revenue (or certain parts of the maximum allowed PSO revenue) will be recovered from in relevant year t (“unit coverage”) rests with the Authority. In each relevant year t on the decision of the Authority regarding unit coverage of the PSO Charge, the Licensee will then draw up for the relevant year t the schedule of PSO Charges in accordance with Condition 24A in a manner which is consistent with the decision of the Authority regarding unit coverage. If the Licensee draws up for relevant year t the schedule of PSO Charges in accordance with Condition 24A in a manner which is not consistent with the decision

of the Authority regarding unit coverage then the Authority's approval under Condition 24A for the form of this schedule will not be granted.

  - (ii) no service has been treated as an excluded service other than a service permitted to be so treated in accordance with paragraph 5;

5.7 Where the Authority is satisfied that it is reasonable in all the circumstances that any service treated by the Licensee as being or not being an excluded service should not be so treated, the Authority shall issue directions to that effect. Any such directions may, where a service is directed to be treated as an excluded service, contain such conditions as the Authority shall see fit in relation to the charges which the Licensee may make for such excluded service and the other terms and conditions upon which the Licensee may provide such excluded service. In accordance with the terms of such directions, such service shall cease to be

treated as an excluded service with effect from the date of issue of such directions or such earlier date (being not earlier than the commencement of the relevant year to which the statement last furnished to the Authority pursuant to paragraph 4.5 prior to issue of such directions related, unless such statement or the accompanying report or certificate referred to in paragraph 4.6 or any earlier such statement, report or certificate was incorrect or misleading in any material respect) as may be specified in the directions.

6.2 Subject to paragraphs 6.3 and 6.5, the Licensee shall in any relevant year be entitled to recover an aggregate amount equal to the Licensee's allowed transmission and distribution related security costs in that year or (insofar as not previously recovered) any previous year, by means of appropriate equitable increases in the charges made by the Licensee in the course of the Transmission and Distribution Business.

6.3 Paragraph 6.2 shall not apply insofar as such Licensee's allowed transmission and distribution related security costs:

#### **Duration of transmission and distribution charge restriction conditions**

7.1 The transmission and distribution charge restriction conditions shall apply so long as the Licence continues in force but shall cease to have effect (in whole or in part, as the case may be) if the Licensee delivers to the Authority a disapplication request made in accordance with paragraph 7.2 and:

7.4 If the Authority has not made a reference to the Competition Commission under Article 15 of the Order relating to the modification of the transmission and distribution charge restriction conditions before the beginning of the period of 12 months which will end with the disapplication date, the Licensee may deliver written notice to the Authority terminating the application of such of the transmission and distribution charge restriction conditions (or any part or parts thereof) as are specified in the disapplication request with effect from the disapplication date or a later date.

7.5 If the Competition Commission makes a report on a reference made by the Authority relating to the modification of the transmission and distribution charge restriction conditions (or any part or parts thereof) specified in the disapplication request and such report does not include a conclusion that the cessation of such transmission and distribution charge restriction conditions, in whole or in part, operates or may be expected to operate against the public interest, the Licensee may within 30 days after the publication of the report by the Authority in accordance with Article 16 of the Order deliver to it written notice terminating the application of such transmission and distribution charge restriction conditions (or any part or parts thereof) with effect from the disapplication date or a later date.
